

TRIMBLE SERVICE SEMINAR

Are you a busy coordinator responsible for Trimble GPS equipment maintenance? Let us make your job easier by coming on-site for a hands-on Service Seminar!

A Trimble Certified Service Technician will evaluate, update, and repair all of your systems for one low cost. A GPS/GIS Product Specialist will also be available to visit with you and your field users about the latest technologies that give more ways to be productive.

SERVICE PERFORMED (Included in on-site fee)

On-site equipment tuning¹

- Operating System updates
- GPS firmware updates
- Field software updates
- System performance diagnosis

BASIC REPAIRS

- Screen replacement, discounted price
- Screen protectors and other accessories available for purchase.

Our Service Technicians, Marlane Johnson and Greg Fisher are Trimble Certified and ready to give your units a tune-up.

CARRY-BACK SERVICE

- More extensive repairs or diagnosis-free labor, discounted parts.
- Legacy equipment² free labor, discounted parts
- Legacy equipment² trade-in options

BENEFITS

- Eliminate down-time
- Eliminate shipping and repair order coordination
- Reduce costs
- Standardize field platforms
- Simplify user support

³Includes driving expenses (car mileage .50¢) or air fare and rental car, hotel, per diem and shipping for tools or carry back service. Actual expenses will be billed.

"Having your folks visit each office was a huge help in getting all of our equipment current with software and firmware, which in turn has helped with our in house tech support.

Having a current and standard install on all of our equipment has helped minimize the occurrence,

and standardize the response to questions from our end users. It's been a great help, Thanks!"

*Jesse German
Supervisory GIS Specialist
BLM - Twin Falls District - Operations*
